

SALAH ALTAKI

Dammam, Eastern Province, Saudi Arabia | 0500476825 | salah204321@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate from Saudi Electronic University with a broad technical foundation spanning software development, databases, IT support, and web technologies. Completed cooperative training involving database and backup management, systems analysis, IT support, and technical troubleshooting. Builds on core programming knowledge in Java, JavaScript, and SQL while expanding full-stack development skills through ongoing coursework. Seeking an entry-level opportunity in Information Technology, Software, Systems, or Technical Support in Saudi Arabia.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Web Technologies: HTML, CSS, Bootstrap, Responsive Web Design

Databases: SQL, SQL Server, Relational Database Concepts

Tools & Platforms: Git, GitHub, Visual Studio Code, Command Line

Currently Learning: React, Node.js, Python, Django, REST APIs, MongoDB, Full-Stack Web Development

COOPERATIVE TRAINING EXPERIENCE

Cooperative Trainee — IT Support & Systems | Authorized Al-Ameen Accounting Software Agent & IT Services Provider

- Supported database management, SQL Server administration, and backup operations.
- Assisted with systems analysis, configuration, and integration for client software systems.
- Provided IT support and technical troubleshooting for internal systems and client environments.
- Contributed to system installation, configuration, and maintenance for servers and networks.
- Applied foundational IT security practices in day-to-day support and systems operations.
- Delivered client technical support related to Al-Ameen Accounting Software and worked with C# and SQL Server on related software and database tasks.

PROJECTS

Personal Portfolio Website

- Designed and developed a personal website to present academic background, technical skills, and project work.
- Applied front-end web development practices learned through coursework and self-study.

To-Do List Web Application

- Built a web-based to-do list application to create, manage, and track tasks.
- Applied programming and front-end development skills to implement core application functionality.

EDUCATION

Bachelor of Science in Computer Science | Saudi Electronic University | Expected 2026

Relevant coursework: Java, SQL, Programming Fundamentals, Database Fundamentals, Software Development Concepts

CERTIFICATIONS & COURSES

Completed / Partially Completed

- The Complete Full-Stack Web Development Bootcamp — Udemy (Instructor: Dr. Angela Yu): coursework in Front-End Development; approximately 50% of course completed.

In Progress

- Meta Full Stack Developer Professional Certificate — Coursera: 10-course program covering front-end development, JavaScript, Git/GitHub, React, Python, SQL/databases, Django, and REST APIs; currently in progress.
